

MONIN Beverage Innovation Director

"MONIN Blueberry syrup captures the bright, natural flavour and fresh taste of this very popular berry all around the world. Its deep purple colour is reminiscent of the fresh flesh of blueberries. You may use it in multiple applications, from indulgent milky drinks like a hot chocolate or a milkshake, to delicious and refreshing soft or alcoholic cocktails. I like to use it into a classic Gin-Fizz to give it a twist. Why not giving it a try?"
